1) Does your occupational health department have any departmental guidelines relating to pregnant staff who work in theatre in order to protect the health of the mother and baby from radiation and other harmful substances?	The requirement is for each pregnant worker to have an individual risk assessment completed; this is in accordance with H&S and HR policies. Each pregnancy and individual is different and so the measures adopted will be specific to the staff member.  There is guidance in policy but the main route is the individual risk assessment-see attached
2) If yes to (1), please provide these guidelines or policies in full as a single PDF.	As above
3) Does your theatre department have any department-specific guidelines for pregnant staff who work in theatre in order to protect the health of the mother and baby from radiation and other harmful substances?	As above
4) If yes to (3), please provide these guidelines or policies in full as a single PDF.	Not applicable
